San Diego, CA 92101

Re: Pure Water San Diego

Dear Council President Lightner and Honorable Councilmembers:

The Water Reliability Coalition urges the San Diego City Council to provide ongoing support for accelerated design and implementation of Pure Water San Diego for production of 30 million gallons of recycled drinking water by 2021.

Two years ago we encouraged Mayor Faulconer and the Public Utilities Department to pursue an accelerated timeline due to the severity of the drought. The Council and numerous stakeholders also agreed, that if feasible, it would be prudent to bring Pure Water San Diego online as soon as possible.

For numerous reasons, this is the smart thing to do. Now is not the time to slow things down.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. O'Malley".

Matt O'Malley  
WRC Co-Chair
